Cautionary statement regarding forward-looking statements

This presentation contains statements that constitute "forward-looking statements," including but not limited to management's outlook for UBS's financial performance and statements relating to the anticipated effect of transactions and strategic initiatives on UBS's business and future development. While these forward-looking statements represent UBS's judgments and expectations concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS's expectations. Additional information about those factors is set forth in documents furnished or filed by UBS with the US Securities and Exchange Commission, including UBS's financial report for third quarter 2010 and UBS's Annual Report on Form 20-F for the year ended 31 December 2009. UBS is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events or otherwise.

3Q10 overview

Net profit attributable to shareholders CHF 1.7 billion, diluted EPS CHF 0.43

Pre-tax profit CHF 0.8 billion

Results include a CHF 0.8 billion net income tax benefit

Year-to-date net profit attributable to shareholders CHF 5.9 billion

The Investment Bank's results were impacted by reduced client flows in equities and FX as well as an own credit¹ charge of CHF 0.4 billion

Wealth Management revenues decreased on lower client activity and the strengthening of the Swiss franc against major currencies

Retail & Corporate and Global Asset Management produced relatively stable profits

Further improvement in net new money and stable invested asset base

Tier 1 capital ratio 16.7% and core tier 1 capital ratio 14.2%

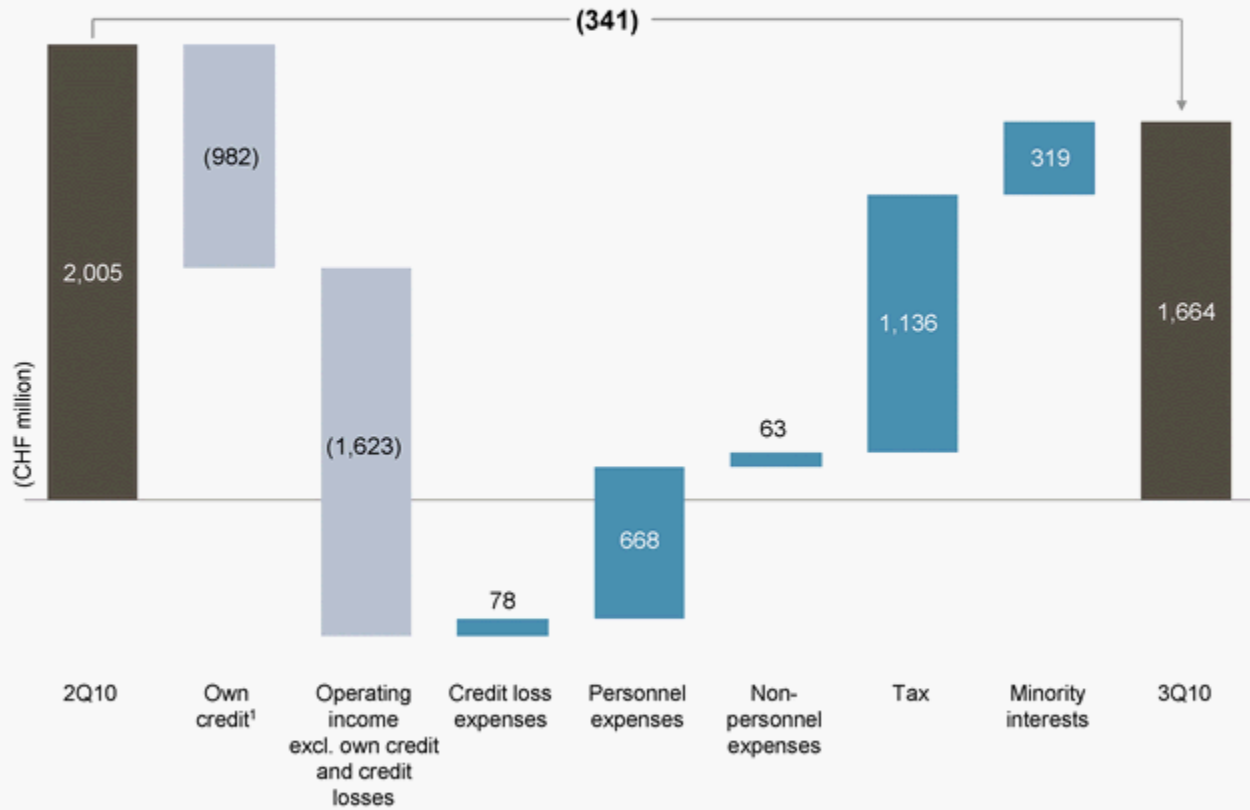

Stable balance sheet and risk-weighted assets broadly stable

We are confident that we can meet the Swiss Expert Commission's capital recommendations within the implementation timeframe

¹ Own credit on financial liabilities designated at fair value through profit or loss

Pre-tax profit from continuing operations – YTD

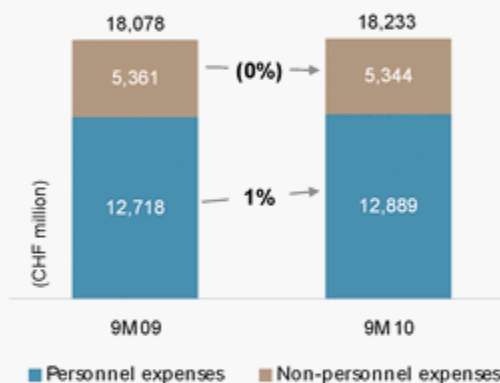

Operating expenses

Reduction reflects lower personnel expenses on lower revenues

Quarterly operating expenses (adjusted)¹

YTD operating expenses (adjusted)¹

On track to reach our full year fixed costs target of CHF 20 billion

¹ Adjustment items excluded from expenses as reported:

1Q10: personnel restructuring charges CHF 21 million

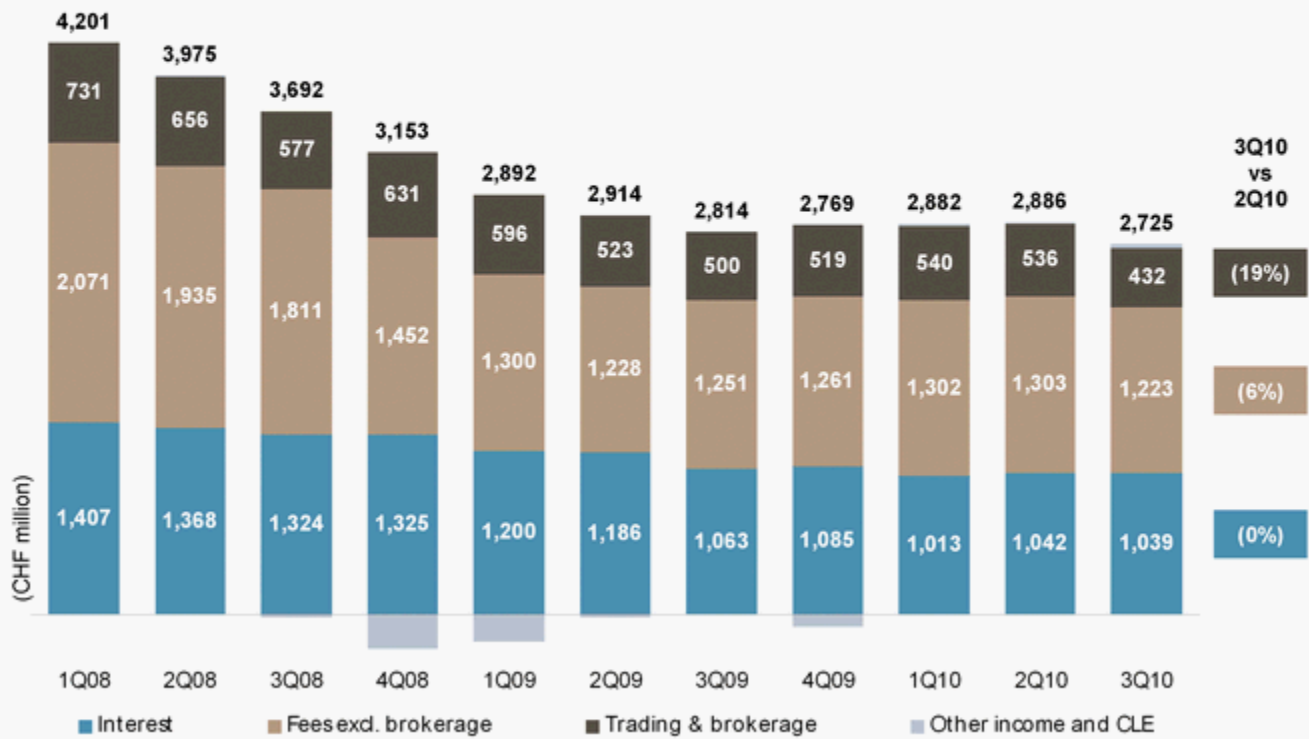

2Q10: personnel restructuring charges CHF 8 million credit, UK Bank Payroll Tax CHF 242 million, non-personnel restructuring charges CHF 127 million

3Q10: personnel restructuring charges CHF 1 million credit, non-personnel restructuring charges CHF 3 million credit

9M09: personnel restructuring charges CHF 502 million, non-personnel restructuring charges CHF 276 million, goodwill impairment charges CHF 1,123 million

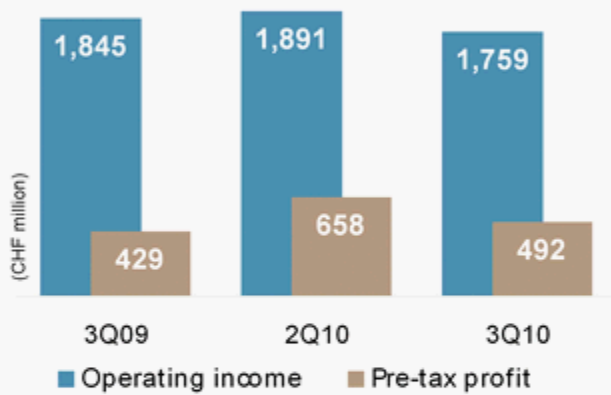

WM&SB – revenues

Revenues down 6%, mainly due to lower trading & brokerage income

Wealth Management

Reduced client activity and strengthening of Swiss franc affected results

- Cost increase mainly reflects real estate charges and higher marketing expenses

Net new money

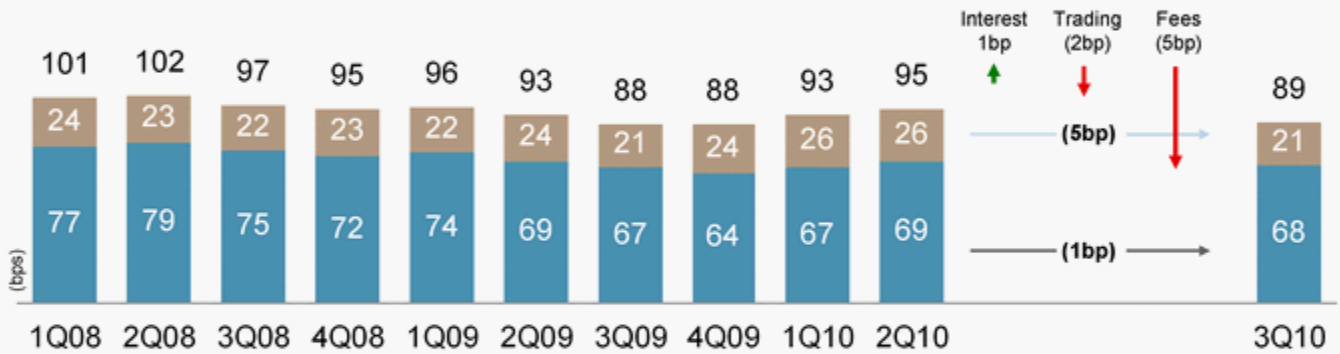

- Continued positive NNM from UHNW clients and Asia Pacific region
- Net inflows from Swiss Wealth Management were partly offset by net outflows from International Wealth Management
- Stable invested asset base as positive market movements offset negative currency effects

Wealth Management – gross margins¹

■ Non-recurring
■ Recurring

Asset-based fees declined as billings for a particular month are generally based on asset levels at the end of the prior month. Asset levels decreased sharply towards the end of the second quarter due to negative market performance and the strengthening of the Swiss franc, thereby adversely impacting revenues in the third quarter.

Pricing

Continued pricing discipline had a positive effect

Lending

Slight increase in volumes during the quarter

Brokerage

Brokerage revenues decreased significantly on lower client activity

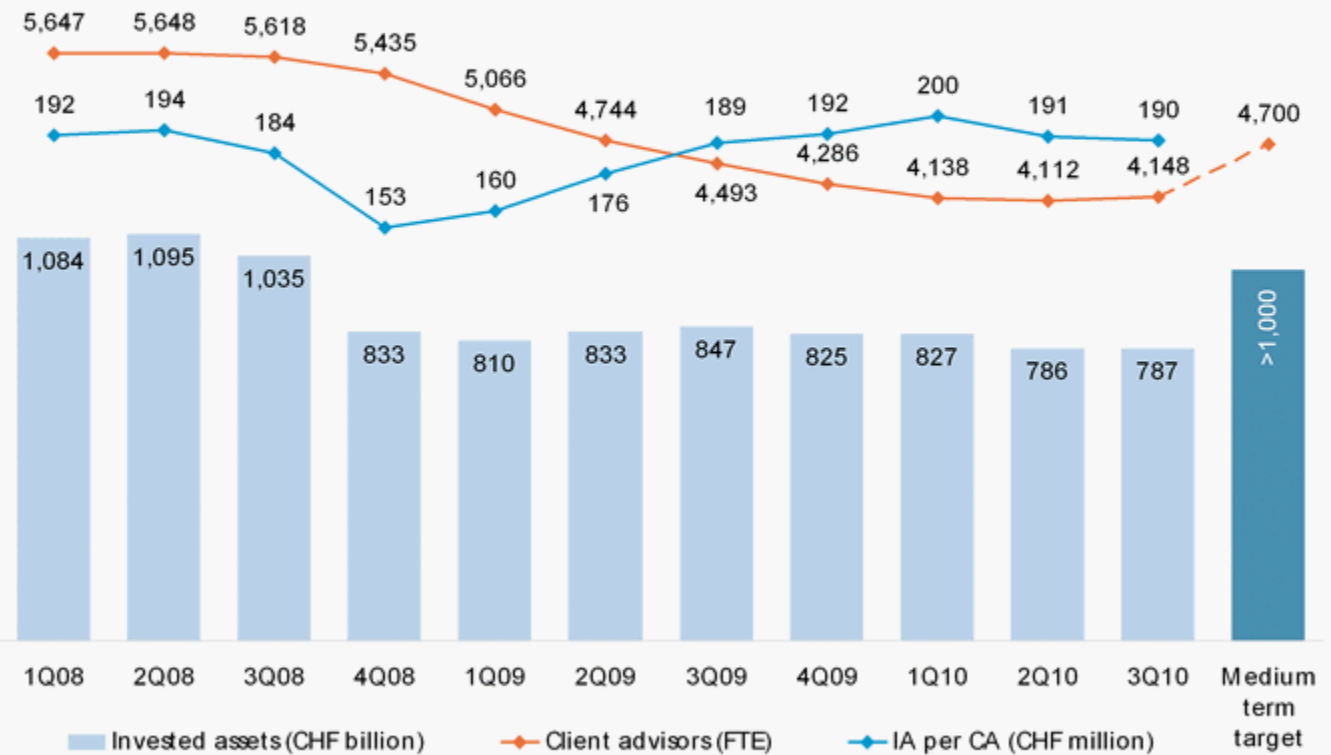

Mandates

The proportion of assets invested in mandates remained stable

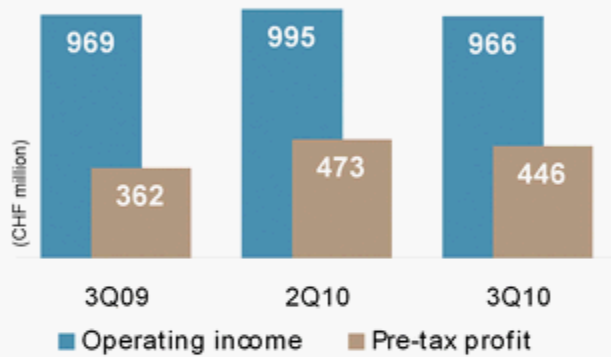

¹ Operating income before credit loss (expense) or recovery (annualized) / average invested assets. Gross margin excludes valuation adjustments on a property fund of zero in 3Q10, CHF 17 million in 2Q10, CHF 28 million in 1Q10, CHF 88 million in 4Q09, CHF 31 million in 3Q09, CHF 13 million in 2Q09, CHF 23 million in 1Q09 and CHF 9 million in 4Q08

Wealth Management – client advisors and invested assets

Retail & Corporate

Relatively stable performance

- Low interest rates continued to put pressure on deposit interest margin
- Decrease in fee and brokerage income
- Continued low levels of credit loss expenses
- Stable operating expenses

Operating expenses and C/I ratio

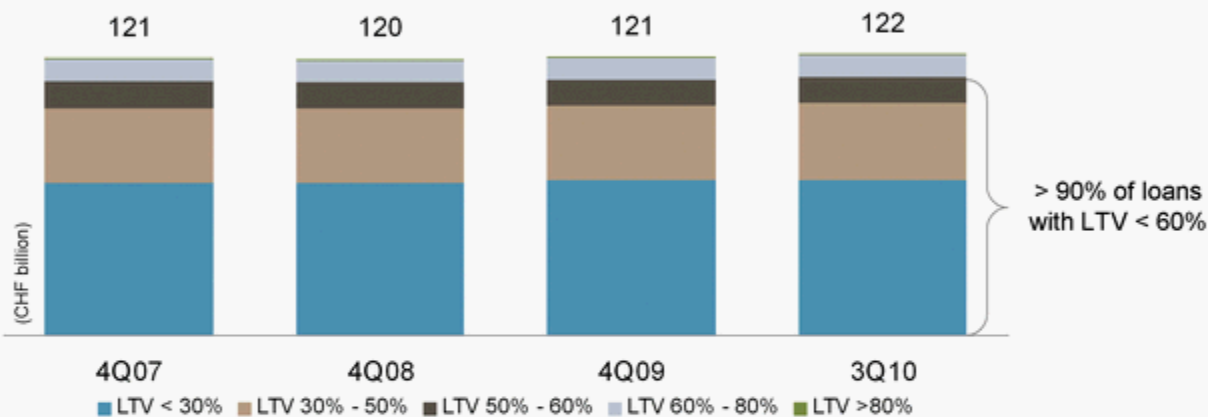

Credit loss expenses

Exposure to Swiss residential mortgage market

Carefully managed residential mortgage book

UBS's loans secured by residential property¹

- Over 90% of residential mortgages with loan to value (LTV) below 60%
- Maintained high underwriting standards
- LTV subject to regular assessment
 - Owner-occupied real estate is assessed at least annually, multi-family homes at least every three years
- On 30.9.10, less than 0.3% of UBS's total Swiss mortgage portfolio was impaired and less than 0.5% was past due > 90 days but not impaired

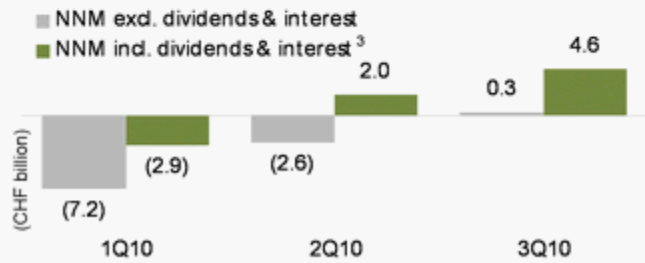

¹ Excludes impaired exposures, exposures from international locations and from Swiss subsidiaries

Wealth Management Americas

- Non-recurring income
- Recurring income
- Pre-tax profit
- Pre-tax profit adjusted for restructuring and 3Q10 provision related to an arbitration matter ¹

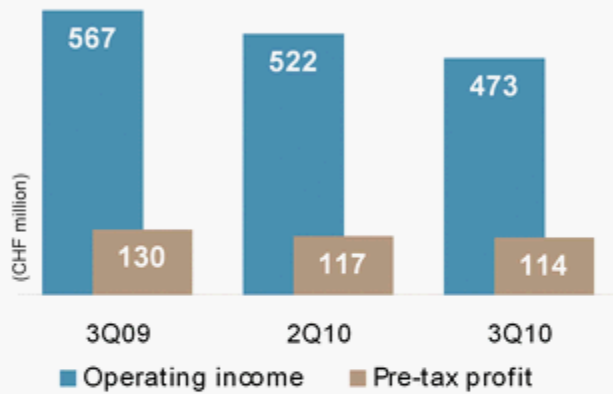

- CHF 31 million pre-tax profit adjusted for CHF 78 million provision related to an arbitration matter
 - Revenues down 10%, primarily due to FX movements
 - Operating expenses down 7% excluding 3Q10 provision related to an arbitration matter and restructuring charges¹
- Financial advisors up 23 at 6,783
- CHF 0.3 billion net new money inflows
 - ‘Same store’² NNM positive for third quarter in a row

¹ Provision related to an arbitration matter of CHF 78 million in 3Q10, restructuring charges of CHF 146 million in 2Q10 and restructuring charges of CHF 1 million in 3Q09
² Financial advisors with UBS for more than 12 months
³ Includes dividends and interest for Wealth Management US only

Global Asset Management

Stable earnings

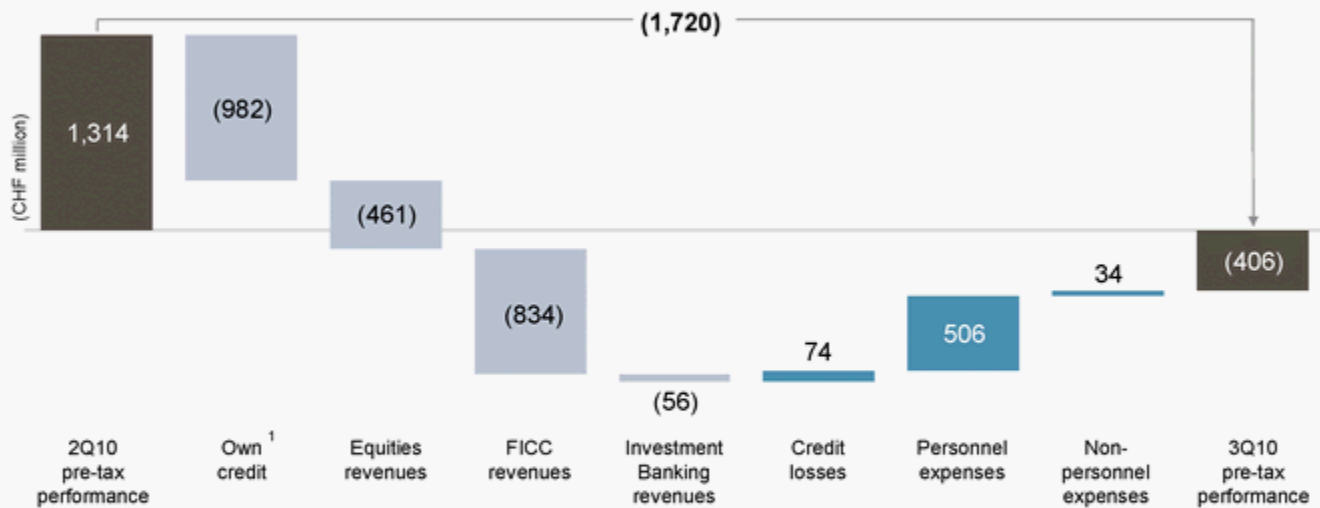

- Lower management fees due to adverse impact of the strengthening of the Swiss franc on invested assets
- Reduced costs due to the strengthening of the Swiss franc and lower personnel expenses
- Net new money:
 - CHF 1.5 billion net inflows from third parties were offset by CHF 1.4 billion net outflows from UBS WM channels
 - Excluding money market funds, NNM was positive CHF 3.9 billion as equities, fixed income and A&Q all recorded positive NNM

Net new money YTD

Investment Bank – pre-tax performance 3Q10 vs. 2Q10

Own credit¹ losses and lower revenues partly offset by lower costs

- Improved contributions from credit, emerging markets, advisory and DCM were more than offset by weaker performances in FX, rates, equity derivatives and cash equities
- Own credit¹ charge of CHF 387 million in 3Q10 vs. CHF 595 million gain in 2Q10 resulting in CHF 982 million movement
- Personnel costs reduced on lower revenues

¹ Own credit on financial liabilities designated at fair value through profit or loss

Investment Bank – 3Q10 market environment & risk profile

3Q10 was characterized by low client activity levels, particularly in equities and FX

Trading risk increased moderately, reverting to more normalized levels

- Average 1-day 95% management VaR increased to CHF 58 million in 3Q10, primarily due to an increase in credit spread and interest rate risk
 - Decrease in diversification effect also contributed to the increase in VaR
 - UBS's VaR model uses a five-year historical time series and therefore still factors in the impact of the crisis

We achieved further reductions in our residual risk positions

- Gross impaired lending portfolio further decreased, primarily due to the sale of a legacy restructured leveraged finance position without incurring incremental costs

Equities revenues

Reduced client activity and weak trading volumes

- **Cash:** decrease in investor activity and reduced market volumes resulted in lower commission income
- **Derivatives:**
 - Derivatives revenues declined due to lower volumes and limited client flow
 - Equity linked revenues increased, reflecting improved valuations as market sentiment recovered
- **Prime services:**
 - Prime brokerage revenues decreased due to reduced securities financing after a strong second quarter
 - ETD revenues decreased due to lower commission income from a reduction in client volumes

¹ 2Q10 revenues include CHF 61 million gains on the CBOE demutualization (of which CHF 47 million in "Other")

FICC revenues

Improvement in credit and emerging markets offset by weaker macro revenues

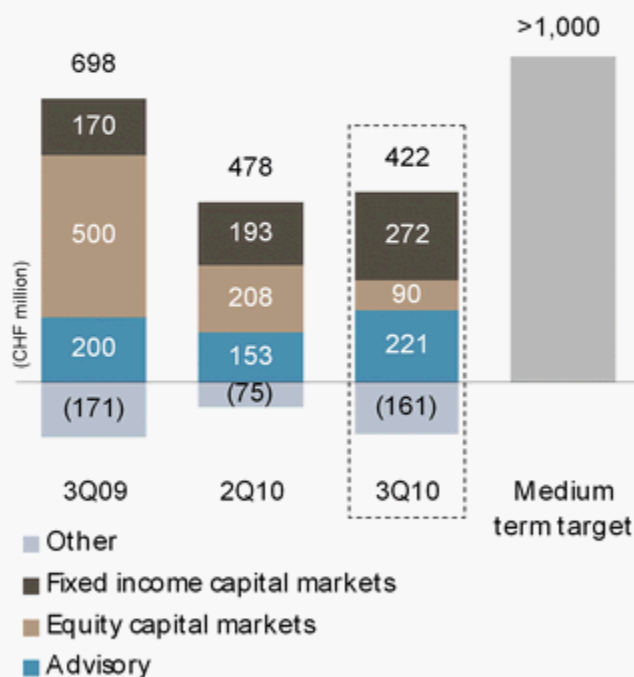

- The combined revenues from credit, macro and emerging markets were CHF 996 million compared with CHF 1,200 million
- **Macro:**
 - FX revenues were impacted by subdued market activity and tighter spreads
 - Rates revenues decreased, partly due to markdowns of certain non-linear rates positions
- **Credit:** revenues increased due to strong performance in client solutions, improved client flow and higher spreads
- **Emerging markets:** gains were recorded across all regions as a result of greater client interest, particularly in local market debt
- **Other:**
 - Residual risk positions continued to be reduced and contributed gains of CHF ~ 0.1 billion
 - Losses of CHF 0.2 billion due to debit valuation adjustments on derivatives¹

¹ Investment Bank total CHF 0.1 billion of negative debit valuation adjustments

Investment banking revenues

Stronger advisory and DCM performance offset by lower ECM revenues

- **Advisory:** 44% increase in revenues on 9% reduced fee pool
- **Capital markets:** Fixed income revenues increased on the back of a pick-up in deal activity, offset by lower revenues from Equities
- **Other:** tightening of credit spreads led to mark-to-market losses on hedges against the loan book
- Global fee pool up 3% from 2Q10 and 4% from 3Q09
- Overall UBS fee based market share¹ increased compared with 2Q10 (3.8% from 3.5%)
 - M&A: 4.4% (3.9%)
 - ECM: 4.5% (3.9%)
 - DCM: 3.7% (3.5%)

¹ Source: Dealogic as of 1 October 2010

Capital position

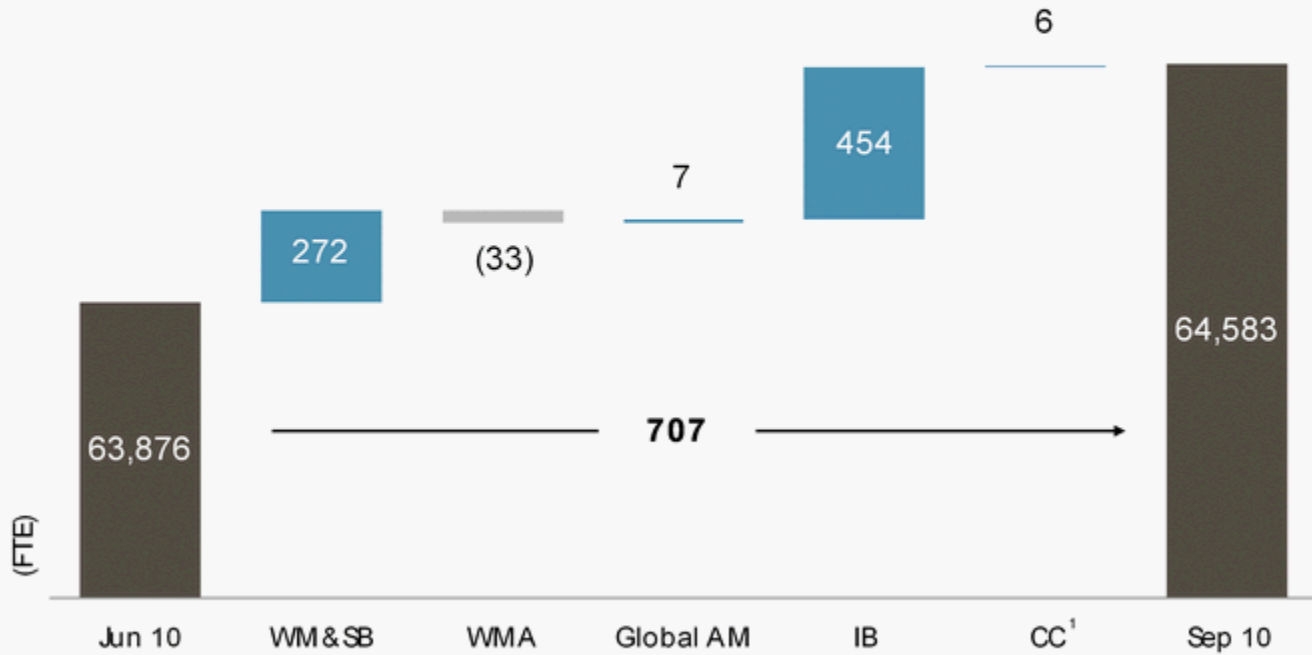

- Tier 1 capital ratio increased to 16.7%
- Core tier 1 capital ratio improved to 14.2%
- Risk-weighted assets up CHF 3.5 billion to CHF 208.3 billion
- FINMA leverage ratio 4.4%
- USD 1.5 billion hybrid tier 1 instrument redeemed on 1 October 2010
 - Effect of redemption reflected in 3Q10 numbers

Appendix

Headcount

- Headcount up by 707 during 3Q10
 - Increase reflect selective hiring and annual hiring of graduates and apprentices
