## Cautionary statement regarding forward-looking statements

This presentation contains statements that constitute "forward-looking statements", including but not limited to management's outlook for UBS's financial performance and statements relating to the anticipated effect of transactions and strategic initiatives on UBS's business and future development. While these forward-looking statements represent UBS's judgments and expectations concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS's expectations. These factors include, but are not limited to: (i) the degree to which UBS is successful in executing its announced strategic plans, including its efficiency initiatives and its planned further reduction in its Basel III risk-weighted assets (RWA) and leverage ratio denominator; (ii) developments in the markets in which UBS operates or to which it is exposed, including movements in securities prices or liquidity, credit spreads, currency exchange rates and interest rates and the effect of economic conditions and market developments on the financial position or creditworthiness of UBS's clients and counterparties; (iii) changes in the availability of capital and funding, including any changes in UBS's credit spreads and ratings, or arising from requirements for bail-in debt or loss-absorbing capital; (iv) changes in or the implementation of financial legislation and regulation in Switzerland, the US, the UK and other financial centers that may impose more stringent capital (including leverage ratio), liquidity and funding requirements, incremental tax requirements, additional levies, limitations on permitted activities, constraints on remuneration or other measures; (v) uncertainty as to when and to what degree the Swiss Financial Market Supervisory Authority (FINMA) will approve reductions to the incremental RWA resulting from the supplemental operational risk-capital analysis mutually agreed to by UBS and FINMA effective 31 December 2013, or will approve a limited reduction of capital requirements due to measures to reduce resolvability risk; (vi) the degree to which UBS is successful in executing the announced creation of a new Swiss banking subsidiary, a holding company for the UBS Group, a US intermediate holding company, changes in the operating model of UBS Limited and other changes which UBS may make in its legal entity structure and operating model, including, the possible consequences of such changes, and the potential need to make other changes to the legal structure or booking model of UBS Group in response to legal and regulatory requirements, including capital requirements, resolvability requirements and the pending Swiss parliamentary proposals and proposals in other countries for mandatory structural reform of banks; (vii) changes in UBS's competitive position, including whether differences in regulatory capital and other requirements among the major financial centers will adversely affect UBS's ability to compete in certain lines of business; (viii) the ability to which UBS may be exposed, or possible constraints or sanctions that regulatory authorities might impose on UBS, due to litigation, contractual claims and regulatory investigations; (ix) the effects on UBS's cross-border banking business of tax or regulatory developments and of possible changes in UBS's policies and practices relating to this business; (x) UBS's ability to retain and attract the employees necessary to generate revenues and to manage, support and control its businesses, which may be affected by competitive factors including differences in compensation practices; (xi) changes in accounting or tax standards or policies, and determinations or interpretations affecting the recognition of gain or loss, the valuation of goodwill, the recognition of deferred tax assets and other matters; (xii) limitations on the effectiveness of UBS's internal processes for risk management, risk control, measurement and modeling, and of financial models generally; (xiii) whether UBS will be successful in keeping pace with competitors in updating its technology, particularly in trading businesses; (xiv) the occurrence of operational failures, such as fraud, unauthorized trading and systems failures; and (xv) the effect that these or other factors or unanticipated events may have on our reputation and the additional consequences that this may have on our business and performance. The sequence in which the factors above are presented is not indicative of their likelihood of occurrence or the potential magnitude of their consequences. Our business and financial performance could be affected by other factors identified in our past and future filings and reports, including those filed with the SEC. More detailed information about those factors is set forth in documents furnished by UBS and filings made by UBS with the SEC, including UBS's Annual Report on Form 20-F for the year ended 31 December 2013. UBS is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events, or otherwise.

# Wealth Management

## Increased profitability on improved client activity, strong net new money

### Operating income and profit before tax

### Operating income up 5%

- Recurring income<sup>1</sup> down 2% to CHF 1,392 million on lower net interest income and recurring net fee income
- Transaction-based income up 28% to CHF 542 million as client activity improved across all regions

### Adjusted cost/income ratio 66%

- Adjusted expenses down 5% to CHF 1,285 million, as higher provisions for litigation, regulatory and similar matters were more than offset by lower other G&A expenses as well as lower variable compensation expenses

### Net new money

### CHF 10.9 billion net new money

- Strong net inflows in APAC and Emerging Markets
- 5<sup>th</sup> consecutive quarter of positive NNM in Switzerland
- In Europe, net new money was negatively impacted by a single large outflow and ongoing cross-border asset outflows
- Annualized NNM growth rate of 4.9%

Refer to slide 26 for details about adjusted numbers, Basel III numbers and FX rates in this presentation

# Wealth Management—by region<sup>1</sup>

<sup>1</sup> Based on the Wealth Management business area structure; refer to page 23 of the 1Q14 financial report for more information

# Wealth Management—Gross margin

## Improved gross margin on higher client activity

Lower treasury-related income and a slight decrease in income from client deposits, partially offset increased interest income from Lombard loans

Increase in client activity levels across all regions, most notably in APAC

Invested assets	870	862	871	886	899

<sup>1</sup> Gross margin calculation excludes any effect on profit or loss from a property fund from other income. Refer to page 22 of the 1Q14 report for additional information

# Wealth Management Americas (USD)

Record adjusted PBT of USD 284 million, record revenue and invested assets

## Operating income and profit before tax

## Operating income up 1%

- Recurring net fee income up 3% on record managed account asset levels, offset by 9% decrease in net interest income
- Transaction-based income down 1% with slight decrease in client activity, partly offset by higher net trading income as 4Q13 included trading losses related to Puerto Rico municipal market
- Credit loss recovery of USD 19 million, compared with credit loss expense of USD 9 million in 4Q13
- USD 15 million insurance reimbursement in 4Q13

## Adjusted cost/income ratio 86%

- Adjusted expenses up 1% to USD 1,582 million mostly due to USD 34 million higher charges for litigation, regulatory and similar matters, partly offset by lower Corporate Center allocated costs

## Net new money

## USD 2.1 billion net new money

- 15<sup>th</sup> consecutive quarter of positive NNM
- Solid increase in same-store<sup>1</sup> NNM, lower flows from net recruited FAs

## Continued strong FA productivity

- Annualized revenue per FA > USD 1 million
- Record invested assets per FA of USD 139 million

Refer to slide 26 for details about adjusted numbers, Basel III numbers and FX rates in this presentation  
<sup>1</sup> Net new money brought in by financial advisors that have been with UBS for more than 12 months

# Retail & Corporate

## Best first quarter adjusted pre-tax profit since 2010

### Operating income and profit before tax

CHF million

### Operating income stable

- Net credit loss recovery compared with net credit loss expense in the prior quarter
- Lower transaction-based and net interest income not entirely offset by higher recurring net fee income

### Adjusted cost/income ratio 58%

- 9% decrease in adjusted expenses
- Lower charges for litigation, regulatory and similar matters and lower technology expenses, partly offset by higher personnel expenses

■ Operating income (as reported) ■ Profit before tax (adjusted)  
 ■ Profit before tax (as reported)

### Net interest margin

 1 Net new business volume

# Global Asset Management

## CHF 13 billion net new money excluding money market funds

### Adjusted operating income and profit before tax

### Operating income down 6%

- Performance fees down by CHF 25 million to CHF 47 million, mainly in A&Q and O'Connor
- Net management fees down by CHF 6 million mainly in traditional investments

### Adjusted cost/income ratio 72%

- Adjusted operating expenses down by 4% on lower variable compensation and G&A expenses, partly offset by CHF 14 million provision for a fund liquidation

### Gross margin 31 bps

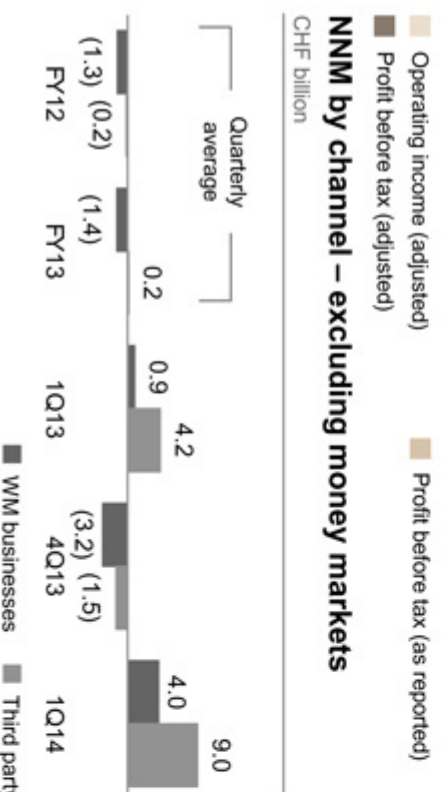

- Down 2 bps on lower performance fees in A&Q and O'Connor

### CHF 13 billion NNM excluding MM funds

- Net inflows from third party channels and wealth management businesses across a variety of capabilities

### Solid investment performance

- Strong performance versus peers in multi-asset and alternatives

Refer to slide 26 for details about adjusted numbers, Basel III numbers and FX rates in this presentation

# Investment Bank

## Adjusted RoAE of 28% with improved performance across all regions

### Adjusted operating income and profit before tax

### Operating income up 18%

- CCS: strong performance with robust contribution from DCM in both the leveraged finance and investment grade businesses
- ICS: strong performance in Equities while FX, Rates and Credit were resilient in an unusually weak 1Q

### Adjusted cost/income ratio 75%

- Adjusted operating expenses up 11% to CHF 1,641 million driven by higher variable compensation expenses, partly offset by decrease in G&A expenses

### 28% adjusted RoAE<sup>1</sup> in 1Q14

- Solid profits delivered with tight RWA and balance sheet management
- Stable RWA with slight increase in funded assets on higher trading assets in ICS

Operating income

CHF million

USD million

- Comparison in USD terms (1Q14 vs. 4Q13)**
- Advisory (22%)**
- Decrease from strong 4Q13 reflects lower revenues from private transactions
  - Up 40% year-over-year

**Equity capital markets (18%)**

- Decrease in line with market fee pool, partly offset by strong contribution from increased block trading activity

**Debt capital markets +48%**

- Strong growth in both investment grade and leveraged finance

**Financing solutions +8%**

- Increased revenues from structured financing on a larger number of deals

**Key transactions in 1Q14<sup>3</sup>**

Advisory	Vodafone/Verizon Wireless; Co-Op restructuring; InterOil Corp.'s sale of Elk/Antelope to Total
ECM	Secondary sell-down in Lloyds Banking Group; Piraeus Bank capital increase

<b>Net treasury income retained in CC-Core Functions</b>	<b>(902)</b>	<b>(343)</b>	<b>(46)</b>

Costs of the Group's overall long term funding will be reduced as the long term debt portfolio rolls off and with declining volumes as we reduce our balance sheet

We will continue to maintain a diversified funding profile and comfortable LCR and NSFR ratios

- Retained funding costs expected to decrease slightly in FY14 from CHF 510 million in FY13, to approximately CHF 100 million in FY15 and to a negligible amount in FY16
- Increase in profits retained in treasury partially due to 37 million loss on sales of financial instruments held in the available-for-sale portfolio in 4Q13
- Lower negative revenue from accounting asymmetry and other adjustments largely due to CHF 104 million lower losses from cross-currency basis swaps, a CHF 49 million gain on macro cash flow hedges compared with a loss of 10 million in 4Q13, and no debt buyback costs in 1Q14

<sup>1</sup> Majority offset by CHF 204 million net profit attributable to preferred noteholders

- **Legacy Portfolio:** Income of CHF 13 million as gains in RLN portfolio and real estate assets more than offset losses in muni portfolio

### Adjusted operating expenses CHF 245 million

- Provisions for litigation, regulatory and similar matters of CHF 54 million
- 4Q13 included a CHF 68 million charge related to the annual UK bank levy

**We continue to expect elevated charges for litigation, regulatory and similar matters through the year**

## Important information related to numbers shown in this presentation

---

### **Use of adjusted numbers**

Unless otherwise indicated, "adjusted" figures exclude the adjustment items listed on the previous slide, to the extent applicable, on a Group and business division level. Refer to pages 12 of the 1Q14 financial report for an overview of adjusted numbers.

### **Basel III RWA, Basel III capital and Basel III liquidity ratios**

Basel III numbers are based on the BIS Basel III framework, as applicable for Swiss Systemically relevant banks (SRB). In the presentation are SRB Basel III numbers unless otherwise stated. Our fully applied and phase-in Swiss SRB Basel III and BIS Basel III capital components have the same basis of calculation, except for differences disclosed on page 80 of the 1Q14 financial report.

Basel III risk-weighted assets in the presentation are calculated on the basis of Basel III fully applied unless otherwise stated. Our RWA under BIS Basel III are the same as under Swiss SRB Basel III.

Leverage ratio and leverage ratio denominator in this presentation are calculated on the basis of fully applied Swiss SRB Basel III, unless otherwise stated.

From 1Q13 Basel III requirements apply. All Basel III numbers prior to 1Q13 are on a pro-forma basis. Some of the models applied when calculating pro-forma information required regulatory approval and included estimates (discussed with our primary regulator) of the effect of these new capital charges.

Refer to the "Capital Management" section in the 1Q14 financial report for more information.

### **Currency translation**

Monthly income statement items of foreign operations with a functional currency other than Swiss francs are translated with month-end rates into Swiss francs. Refer to "Note 36 Currency translation rates" in the 2013 Annual Report for more information.

### **Rounding**

Numbers presented throughout this presentation may not add up precisely to the totals provided in the tables and text. Percentages, percent changes and absolute variances are calculated based on rounded figures displayed in the tables and text and may not precisely reflect the percentages, percent changes and absolute variances that would be derived based on figures that are not rounded.
