Switch to fast, free electronic documents.

- E-documents remain available online for two years
- Environmentally friendly
- Your documents are available immediately. There is no delay while they are sent by post
- Notifications of new e-documents

## What does UBS Mobile Banking offer you?

### Mobile Banking app

The UBS Mobile Banking app keeps your bank within reach at all times. Whether you want to check account transactions, make payments, get updated on financial markets or make trades, you can take care of all of your banking business whenever you have time, no matter where you are.

### Notifications

Receive automatic push notifications by app, SMS or e-mail about certain events, such as credits or debits to your account.

You can find out more about UBS Mobile Banking and how easy it is to access it wherever you are online at [ubs.com/de-mobile](http://ubs.com/de-mobile).

## How do UBS e-banking and UBS Mobile Banking afford the highest possible level of security?

### The secure Access Card

To log into e-banking securely from your computer, tablet or smartphone, you always need a separate Access Card which contains your protected access data. The Access Card can only be activated with your PIN. Even if your device falls into the wrong hands, nobody can access your account without your personal Access Card and the corresponding PIN.

The Access Card is also protected against electronic attacks because it is not linked to your computer, tablet or smartphone. The Access Card is out of reach of viruses, malware and Trojans.

### **Your personal code**

If your Access Card is activated, you can calculate your personal code. A new code is generated for each login and is only valid for a short period of time.

### **Additional security for payments**

Beneficiary confirmation is an additional security feature for payment transactions. A one-time additional check is required when making payments to new beneficiaries who have not yet been approved by UBS.

### **Security recommendations**

To ensure the best possible security, it is important to protect your own computer and follow all recommended security procedures: [ubs.com/de-online](https://ubs.com/de-online) → Security.

### **Signing up for UBS e-banking**

Order UBS e-banking via your client advisor. He will provide you with any document required.

### **Test out UBS e-banking for yourself**

You can test out UBS e-banking with a demo contract. Open [ubs.com/de-online](https://ubs.com/de-online) and click on "E-Banking Demo" under the "E-Banking" section.
