

# Anytime, anywhere

Do your banking on the go with the **UBS Mobile Banking app**

The UBS Mobile Banking app shows you your financial situation at a glance. Whether you want to get information about your assets, check your account transactions, make payments or trade securities – the Mobile Banking app lets you carry out your banking transactions whenever you have time, even on the move. And always easily and securely.

## Security Standards Security from the start

The Mobile Banking app offers you the same level of security as UBS e-banking. Log in with your personal Access Card, which stores your access data securely, along with your personal PIN.

For convenient and secure access when on the go, available to you are the Access Card with NFC for the wireless exchange of access data or the Access Card Display with integrated card reader function. More information can be found on the Internet at [ubs.com/de-mobile](http://ubs.com/de-mobile).

You can further increase security by adjusting the security settings for online payments in e-banking. Block individual countries or accounts for payments via the Mobile Banking app and e-banking, and set a monthly transfer limit. Please also take note of our security recommendations. Learn more at [ubs.com/de-online](http://ubs.com/de-online) → Security.

## Start page Important information and functions in one place

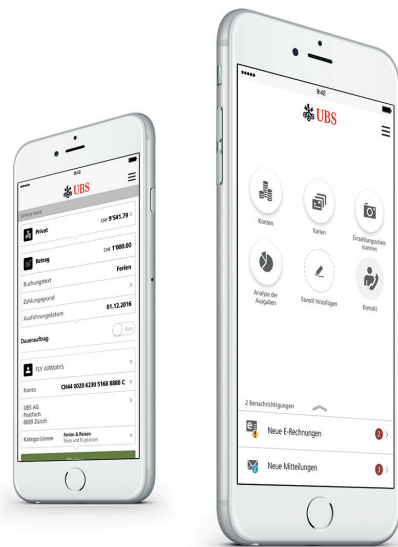

Here you will find current notifications and direct access to your favorites.

- Open the five most important functions directly on the start page. You decide yourself which ones they are.
- You can also see whether there is anything you need to deal with and whether new information or a message from your client advisor is available.

## Accounts and assets Keep a constant overview of your assets

With the account, custody account and portfolio functions, it's easy to keep an overview of your personal financial situation:

- Check the balance of your accounts, including transactions and all the booking details.
- Monitor the progress of your investments.
- See the composition of your portfolio illustrated as a graph.

## Payments

### Transfer money easily and conveniently

Make payments whenever you happen to have time. It's possible now with the Mobile Banking app:

- The payment assistant recognizes payment recipients on record as soon as you have typed in the first three letters or numbers.

## Notifications

### Don't miss a single account movement

Stay informed about the events defined by you by means of push notifications via app, SMS or e-mail. For example:

- Credits, debits and the balance of your accounts
- The status and due dates of your trading activities

## Markets and Trading

### For your stock exchange transactions

Keep your finger on the pulse of the international financial markets wherever you are with the Mobile Banking app and Quotes.

- Find the latest financial market data and the research information you need in just a few clicks.
- Buy and sell your securities at the time that's right for you.
- Set up a virtual portfolio to simulate financial transactions.

## Mailbox

### Secure communication with your client advisor

Use the mailbox for confidential messages and questions for your client advisor, to handle administrative matters or to ask about offers.

## Download now and enjoy more freedom

### Test out the app

The UBS Mobile Banking app is available as a free download for iOS and Android or as a mobile web app (ubs.com/de-webapp) e.g. for Windows and BlackBerry.

To use the app, you need access to UBS e-banking.
