Semiannual Report | January 31, 2024

UBS Government Money Market Investments Fund

March 4, 2024

Dear Shareholder,

Performance (unaudited)

The seven-day current yield for UBS Government Money Market Investments Fund (the “Fund” or “Portfolio”) as of January 31, 2024 was 5.25% (after fee waivers/expense reimbursements).¹ For more information on the Fund’s performance, refer to “Yields and characteristics at a glance” on page 6. Please remember that the PACE program fee is assessed outside the Portfolio at the PACE program account level. The program fee does not impact the determination of the Portfolio’s net asset value per share.

Advisor’s Comments (unaudited)

We tactically adjusted the Fund’s weighted average maturity (“WAM”) throughout the six-month review period. (Weighted average maturity is the average time until a portfolio’s securities mature, weighted in proportion to the amount invested

Objective:

Current income consistent with preservation of capital and liquidity

Investment process:

The Portfolio is a money market mutual fund and seeks to maintain a stable price of \$1.00 per share, although it may be possible to lose money by investing in this Portfolio. The Portfolio invests in a diversified portfolio of high quality money market instruments of governmental issuers and related repurchase agreements. Security selection is based on the assessment of relative values and changes in market and economic conditions.

¹ Class P shares held through the PACE Select Advisors Program are subject to a maximum Program fee of 2.50%, which, if included, would have reduced performance. Class P shares held through other advisory programs also may be subject to a program fee, which, if included, would have reduced performance.

in the portfolio.) When the reporting period began, the portfolio had a WAM of eight days. This was 43 days at the end of the reporting period.

A number of adjustments were made to the Fund's sector and issuer positioning during the six-month period. We increased the portfolio's exposure to US Treasury obligations. In contrast, we reduced its allocation to repurchase agreements and, to a lesser extent, US government agency obligations. (Repurchase agreements are transactions in which the seller of a security agrees to buy it back at a predetermined time and price or upon demand.)

This letter is intended to assist shareholders in understanding how the Fund performed during the six-month period ended January 31, 2024. The views and opinions in the letter were current as of March 4, 2024. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. Understanding your Fund's expenses (unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) ongoing program fees; and (2) ongoing Fund costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, August 1, 2023 to January 31, 2024.

Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

UBS Government Money Market Investments Fund

Understanding your Fund's expenses (unaudited) (concluded)

Please note that the expenses shown in the table are meant to highlight your ongoing Fund costs only and do not reflect any program fees. Therefore, the second line in the table is useful in comparing ongoing Fund costs only, and will not help you determine the relative total costs of owning different funds. In addition, if program fees were included, your costs would have been higher.

	Beginning account value August 1, 2023	Ending account value January 31, 2024	Expenses paid during period 08/01/23 to 01/31/24¹	Expense ratio during the period
Actual	\$1,000.00	\$1,026.80	\$0.76	0.15%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.38	0.76	0.15

¹ Expenses are equal to the Fund's annualized net expense ratios, multiplied by the average account value over the period, multiplied by 184 divided by 366 (to reflect the one-half year period).

¹ Amount represents less than \$0.0005 or \$(0.0005) per share.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each period reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each period reported. The figures do not include program fees; results would be lower if these were included. Total investment return for the period of less than one year has not been annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

UBS Government Money Market Investments Fund Notes to financial statements (unaudited)

Organization and significant accounting policies

UBS Government Money Market Investments Fund (the “Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”), as a diversified series of PACE Select Advisors Trust (the “Trust”), an open-end management investment company organized as a Delaware statutory trust under the laws of the State of Delaware by Certificate of Trust dated September 9, 1994, as amended June 9, 1995 and thereafter. The trustees of the Trust have authority to issue an unlimited number of shares of beneficial interest, par value \$0.001 per share.

The Trust has fifteen series available for investment, each having its own investment objectives and policies. The financial statements for the other series of the Trust are not included herein. Shares of the Fund currently are available to participants in the PACESM Select Advisors Program, the PACESM Multi Advisor Program, and certain other advisory programs offered through select sponsors.

UBS Asset Management (Americas) LLC (“UBS AM”) serves as the investment manager, investment advisor and administrator for the Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Trust accounts separately for the assets, liabilities and operations of each Fund. Expenses directly attributable to each Fund are charged to that Fund’s operations; expenses which are applicable to all Funds are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However,

UBS Government Money Market Investments Fund

Notes to financial statements (unaudited)

the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In October 2022, the SEC adopted the Tailored Shareholder Reports for Mutual Funds and Exchange-Traded Funds rule and reform amendments requiring open-end management investment companies, including mutual funds and exchange-traded funds, to transmit concise and visually engaging semi-annual and annual tailored shareholder reports that highlight key information, including fund expenses, performance, and holdings to shareholders. Certain information from the Fund’s current shareholder reports, including the Fund’s investment portfolio, financial statements and financial highlights, will move to Form N-CSR. This information will be available online, mailed upon request and filed on a semiannual basis. The rule and form amendments have a compliance date of July 24, 2024. Accordingly, the rule and form amendments will not impact the Fund until the 2024 semi-annual shareholder report.

The following is a summary of significant accounting policies:

Valuation of investments—Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), the Fund has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market fund”, the Fund values

UBS Government Money Market Investments Fund

Notes to financial statements (unaudited)

its investments at amortized cost unless the Fund's Board determines that this does not represent fair value. Periodic review and monitoring of the valuation of the securities held by the Fund is performed in an effort to ensure that amortized cost approximates market value.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of each Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of each Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Fund's Portfolio of investments.

Constant net asset value per share—The Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund has adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable it to do so. The Fund has adopted a policy to operate as a "government money market fund" and as such the Fund is permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates—By operating as a "government money market fund," the Fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Fund's Board of Trustees (the "Board") may elect to subject the Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller’s agreement to repurchase them at an agreed upon date (or upon demand) and price. The Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special “tri-party” custodian or subcustodian that maintains a separate account for both the Fund and its counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or the Fund’s investment strategies and limitations, may require the Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller’s guarantor, if any) becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. The Fund intends to enter into repurchase agreements only in

UBS Government Money Market Investments Fund

Notes to financial statements (unaudited)

transactions with counterparties believed by UBS AM and the applicable subadvisor to present minimal credit risks.

The Fund may participate in joint repurchase agreement transactions with other Funds managed, advised or subadvised by UBS AM. Under certain circumstances, the Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in the Fund at the end of the day in order to avoid having the Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment management and administration fees and other transactions with affiliates

The Fund's Board has approved an investment management and administration contract ("Management Contract") with UBS AM. In accordance with the Management Contract, the Fund pays UBS AM an investment management and administration fee, which is accrued daily and paid monthly, at an annual rate of 0.25% of the Fund's average daily net assets. At January 31, 2024, UBS AM is owed \$624,881 from the Fund, representing investment management and administration fees.

UBS AM has contractually undertaken to waive a portion of the Fund's investment management and administration fees and/or reimburse a portion of the Fund's other expenses, when necessary, to maintain the total ordinary annual operating expenses (excluding borrowing costs and interest expense, if any) through November 30, 2024 at a level not to exceed 0.60%. For the period ended January 31, 2024, UBS AM waived \$1,789,826 in investment management fees. This management fee waiver will not be subject to future recoupment. At January 31, 2024, UBS AM owed the Fund \$324,967 in fee waivers.

At January 31, 2024, the Fund had no fee waivers/expense reimbursements subject to repayment to UBS AM.

UBS AM may voluntarily undertake to waive fees and/or reimburse expenses in the event that the yields on Fund drop below a certain level. This undertaking is voluntary and not contractual and may be terminated at any time. For the period ended January 31, 2024, the Fund did not incur this additional waiver.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

UBS Government Money Market Investments Fund

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Fund during the fiscal year ended July 31, 2023 was ordinary income in the amount of \$65,060,792.

The components of accumulated earnings (deficit) on a tax basis for the current fiscal year will be determined after the Fund's fiscal year ending July 31, 2024.

Post-October capital losses are deemed to arise on the first business day of the next taxable year. During the fiscal year ended July 31, 2023, the fund incurred and elected to defer a short-term Post-October capital loss of \$335.

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. At July 31, 2023, the Fund had a short-term capital loss carryforward of \$790.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has analyzed and concluded

UBS Government Money Market Investments Fund

Notes to financial statements (unaudited)

as of January 31, 2024, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended January 31, 2024, the Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended July 31, 2023, remains subject to examination by the Internal Revenue Service and state taxing authorities.
