PACE® Select Advisors Trust—Estimated Capital Gain and Ordinary Income Distributions

For the Funds to avoid an excise tax, the PACE Select Funds must distribute by December 31 of each year virtually all of its ordinary income for the calendar year and virtually all of its capital gain net income for the one-year period ended October 31. To assist our clients, we have prepared the following estimates of capital gain and ordinary income distributions for the PACE Select Funds indicated below. **These estimates may change due to the level of shares outstanding, tax adjustments, actual ordinary income and realized gains/(losses) versus estimates. Record date, ex-date, payable date and other information contained below are based on expectations in September 2023 and may change.**

Definitions:

- **Record date:** This date determines if a client is entitled to receive the dividend and/or capital gains distributions. Accounts that own shares based on trade-date positions (as of close of business) will be entitled to receive the dividend and/or capital gains distributions (i.e. if a client sells shares on record date, he will not be entitled to the dividend on the amount of shares sold).
- **Ex-date:** Date on which the fund's shares trade without the dividend and/or capital gains distributions. The fund's NAV is adjusted by the amount of the dividend and/or capital gains distributions plus or minus any market fluctuations. Dividend reinvestments are calculated using the ex-date's NAV.
- **Payable date:** Date on which the fund's transfer agent processes the dividend and/or capital gains distributions and creates the files for transmission to UBS Financial Services.

¹ Estimated ordinary income and capital gain distribution percentages and per share amounts are based on each Fund's shares outstanding and net asset value per share on October 31, 2023. Ordinary income distributions are distributed at the class level and will vary by class. Such percentages and per share amounts may increase or decrease depending on the level of capital stock activity (for example, purchases and sales of fund shares) and net asset value movement between the date of this communication and the record date of the distribution.

² These funds normally distribute net investment income monthly. Amounts shown, if any, primarily represents additional distributions required as a result of various tax adjustments.

Note: The above estimates may change due to the level of shares outstanding, tax adjustments, actual ordinary income and realized gains/(losses) versus estimates. The above ordinary income and capital gain per share amounts are estimates only. There is no guarantee that any portfolio will make ordinary income and/or capital gain distributions.
